MID-DAY INC. / Woodworker

October 2016 - PRESENT, Woodlawn, OH

I've been working in furniture restoration and design for 5 years, where I had to repair and manufacture a variety of products such as cabinets and furniture, using wood, veneers, and laminates. Also I had to understand and modify detailed architectural drawings, schematics, shop sketches and blueprints. I also have team experience with this field, which required me to collaborate with other Woodworkers to complete projects during the finishing process with tasks such as relaying measurements and data for the project, picking up where the previous teammate left off, and having a shared workspace with teammate.

— Education

The Ohio State University / Coding Bootcamp Certification

October 2020 -Currently Enrolled

I have recently made a career switch into web development and design, I have always had an interest in this field but never took the steps needed to do so out of high school. But now I am confident and excited to begin learning in this field. With the help of OSU's and Trilogy's Coding Bootcamp program I believe they will get me there.

Bellevue High School / High School Diploma

August 2009 - May 2012
